

# **A. O. Smith Launches Instant Water Heater – EWS 1Litre**

**Pune(Voice News Service-):-** India's first and only instant water heater with a glass coated heating element~

Taking a step forward in providing consumers with superior products, A. O. Smith India Water Heating Private Limited, a leading water heater manufacturer, is proud to announce the launch of an innovative instant water heater in the EWS product range (1 litre) with a unique glass coated heating element. Aesthetically designed for Indian homes, it goes well with the Indian kitchen or bathroom.

Commenting on the launch, Mr. Tamal Chaudhuri, Managing Director, A. O. Smith India Water Heating Private Limited said, "In line with our commitment to provide our consumers with the exceptional product offerings, we at A. O. Smith invest our efforts in heeding the demand to a dependable & efficient source of continuous hot water. This has led us to develop the EWS instant water heater that has glass coated heating element which helps prevent scale formation and extends element life. Highly efficient, it ensures quick delivery of hot water, thus saving valuable time."

A. O. Smith India is head quartered in Bengaluru. A. O. Smith manufactures residential and markets commercial water heaters. It currently has sales offices and stocking warehouses strategically located throughout the country as well as a sales and customer service organization in place.
