Award for water heaters

A.O. Smith India Water Heating Private Limited bagged the 'Product of the Year' award for their water heater models HSE-SBS-15 & HSE-SBS-25 respectively.

The award is one of the highest recognitions for a consumer brand in retail products, according to a press release.

The award winning water heaters constitute A.O. Smith's special range of heaters that are described as highly energy efficient with BEE 5 star rating. Both the water heaters feature tanks lined with the exclusive Blue Diamond glass that helps extended product lifespan. It also offers protection against hard water and corrosion and the wired remote controller displays the temperature and the total energy consumed by the water heater.
